

Required Clearance Information for Prospective Adoptive Parents

ADOPTIVE FAMILY: The agency that completed your home study will need to provide *A Guardian Angel Adoptions, LLC* with this form as well as copies of the following clearances with the dates clearly defined. Providing this form and copies of the required clearances will help ensure that your home study meets your state requirements for the various clearances and will help us process your ICPC packet more effectively. Please note Utah requires that state clearances, as well as your sex offender and abuse clearances be less than 18 months old. If any are older than that or if your state requires clearances yearly, you will need to provide new clearances to *A Guardian Angel Adoptions, LLC* prior to your home study being approved. *A Guardian Angel Adoptions, LLC* is unable to process your home study without a complete and signed copy of this form.

NOTE FOR STAFF COMPLETING FORM: If the state where the prospective adoptive father or prospective adoptive mother does not require a specific clearance, please state “not required” to avoid confusion with not available.
